

Gloria Estefan, Light Of Love

Simple dreams created by the passion
In a place I'd never been before,
And letter perfect expectations of a love affair.
That's what I found when I fell in love with you.

History has been established.
Here and now soon will come to pass.
And stolen moments that will never come to be again.
Baby, I'm just trying to make those moments last.

Blinded by the light of your love.
Born again with a kiss from your lips, oh baby!
Making up our own illusions as we go along
But it's no illusion, baby, we're in love.

Far beyond my imagination
There's a world big enough for two
Read my mind and tell me what is missing, babe
Can't you see that you're my dream come true
And if I wanna get to heaven I don't have to go so far,
'Cause I found heaven when I saw the light of you.

Blinded by the light of your love.
Born again with a kiss from your lips, oh baby!
Blinded by the light of your love
Born again with a kiss.

Blinded by the light of your love.
Born again with a kiss from your lips, oh baby
Blinded by the light of your love
Born again with a kiss from your lips, oh baby!
Blinded by the light of your love, blinded
Blinded by the light of love, blinded.
