

Gloria Estefan, Out Of Nowhere

Out of nowhere
Without a sign
Never knowing what I would find
Out of a dream
Into my life

Must've done something right this time
I don't know where all of this came from
But I think I wanna get me some
Did it happen when I looked away?
In just one day?
Suddenly you fell from up above
And before I knew it, I found love

Got lost on
The way
But I want to stay
I just want to let you know tonight
(all right?)
I can't sleep with all this on my mind
Can you make it right?

Out of nowhere
Without a sign
Never knowing what I would find
Out of a dream
Into my life

We can settle this in just one kiss
Then we'll think of how to deal with this
All the time it was in my best friend
Didn't know it then
But I'm ready for the consequence
Didn't know this could be so intense

Can't take it
Much longer
This could change today
I just want to let you know tonight
(all right?)
I can't sleep with all this on my mind
Can you make it right?
