

# Gloria Estefan, Remember Me With Love

If one day you should go away  
I know you say you'll always stay  
Oh, but life takes funny turns at times  
And has a way of changing minds  
Though I could never be your friend  
To me the end would be the end  
But we've shared so much happiness,  
Just remember  
I know you tell me every day

You'll love me till the end of time  
I tell it you just in case  
Someday you are no longer mine  
There's just one thing I'll ask of you  
Since both of us has so much to lose  
For the things we've made it through  
Just remember, please remember

Remember me with love baby,  
Remember me with love  
No matter where or when,  
If you think of me again  
Remember me with love  
Remember me with love baby,  
Remember me with love  
I know you care for me,  
But if one day you set me free  
Remember me with love

Seems like everywhere I go  
Somebody else is breaking up  
I know as far as I'm concerned  
With you I'll always be in love  
But if one day you feel differently  
All you have to do is come to me  
I will let you go so easily,  
But remember, please remember

Remember me with love baby,  
Remember me with love  
No matter where or when,  
If you think of me again  
Remember me with love  
Remember me with love baby,  
Remember me with love  
I know you care for me,  
But if one day you set me free  
Remember me with love
