

Gloria Estefan, Think About You Know

Is it worth the time
To bring back a forgotten rhyme
Our paths have changed but I can see
You'll always be a part of me

How can I pretend
That this affair has reached the end
When every day I see your face
In everything and every place

And I think about you now
It won't be long before I'll be with you somehow
And I've got to make you see
That no one else could have the same effect on me
And Make me feel the way I do
And I think about you now

We could try again and share the dreams we
Had back then
The memories are fresh and clear
My love for you won't disappear

And I think about you now
It won't be long before I'll be with you somehow
And I've got to make you see
That no one else could have the same effect on me
And Make me feel the way I do
And I think about you now
