

# Gloria Estefan, You

You, simply said  
Are the best thing in my life  
Endless source of happiness  
I could never have designed  
Unsurpassed, glorified  
The center of my universe  
I want so much to express  
But i can't find the words  
My world is changing  
But you make it all worthwhile

You....mystify, sanctify, clarify my destiny  
You elevate, illuminate me  
Fill me with serenity  
Infatuate, you captivate me  
To the point where i can see  
You're all i'll ever need

You, precious gift  
Every moment a surprise  
How i love to see the joy  
That's reflected in your eyes  
Fervent wish, personified  
I could live for your caress  
Every day that you're mine  
Makes me feel so blessed  
Our world is changing  
But you make it all worthwhile

You....mystify, sanctify, clarify my destiny  
You elevate, illuminate me  
Fill me with serenity  
Infatuate, you captivate me

Make it easy to believe  
You're all i'll ever need  
Your world is changing  
But you'll make it all worthwhile

You....mystify, sanctify, clarify my destiny  
You elevate, illuminate me  
Fill me with serenity  
Infatuate, you captivate me  
To the point where i can see  
You're all i'll ever need
