

Gloria Gaynor, Let Me Know (I Have A Right)

I get a little peck and you're after to bed
No warmth, no hug, no kind words are said
Will you dream of me or someone new instead, oh
Just love me and mean it, I'll follow you blind
Lately I feel like a heart left behind
I just can't stand still till you make up your mind

Let me know, let me know, I have a right
Before you touch me one more night
Have I won your love or have I lost the fight
Let me know, let me know, I have a right
To plan my future, get on with my life
Tell me face to face, don't try to be polite

I'll take it, I'll make it
Ooh, yes, I will
Ooh, yeah, yeah, yeah
Listen, listen

I'm livin' each minute with all that I've got
Each breath is in pardon, each heartbeat is hot
That's the way we were way back, you forgot [He forgot, he forgot], ooh
You leave me so empty, it's makin' me sad
To know that our good thing has turned for the bad
Both of us are here, but where's the love we had

Let me know, let me know, I have a right
Before you touch me one more night
Have I won your love or have I lost the fight
Let me know, let me know, I have a right
To plan my future, get on with my life
Tell me face to face, don't try to be polite

Let me know, let me know
Let me know, let me know, I have a right
To plan my future, get on with my life
Tell me face to face, don't try to be polite

I'll take it
Heaven knows I'll make it

I get a little peck and you're after to bed
No warmth, no hug, and no kind words are said
Will you dream of me or someone new instead, listen
Just love me and mean it, I'll follow you blind
Lately I feel like a heart left behind
I just can't stand still till you make up your mind, listen

I get a little peck and you're after to bed
No warmth, no hug, no kind words are said
Will you dream of me or someone new instead, oh
Just love me and mean it, I'll follow you blind
But lately I feel like a heart left behind
I just can't stand still till you make up your mind

Let me know, let me know, I have a right
Before you touch me one more night
Have I won your love or have I lost the fight
Let me know, let me know, I have a right
To plan my future, get on with my life
Tell me face to face, don't try to be polite

I'll take it, I'll make it
You know I will, you know I will

I'm livin' each minute with all that I've got
Each breath is in pardon, each heartbeat is hot
That's the way we were way back, you forgot [He forgot, he forgot], ooh
You leave me so empty, it's makin' me sad
To know that our good thing has turned for the bad
Both of us are here, but where's the love we had

Let me know, let me know, I have a right
Before you touch me one more night
Have I won your love or have I lost the fight
Let me know, let me know, I have a right
To plan my future, get on with my life
Tell me face to face, don't try to be polite

I'll take it, I'll make it
You know I will, you know I will
Oh, yes, I will

Let me know, let me know, I have a right
Before you touch me one more night
Have I won your love, ooh, have I lost the fight
Let me know, let me know, I have a right
To plan my future, get on with my life
Tell me face to face, don't try to be polite

Let me know, I've got to know, I have a right
Before you touch me and, oh, touch me right
Have I won your love, I don't wanna lose the fight
Let me know, let me know, I have a right
To plan my future, get on with my life
Tell me face to face and don't try to be polite, hoo

Let me know, let me know
Let me know, let me know, I've got a right
I got to plan my future, my life
Tell me face to face, don't try to be polite
