Gloriana, Change Your Mind

Girl dont say a thing Lie here next to me Underneath the moonlight I know its getting late Let the music play Its okay to stay the night How about we give this One more try Come on and let me hold you Come on you know you want to One more chance to finally Get this right I know you think its over Give me a chance to Change your mind Ain't been easy Never will be It was good And still could be I want to touch your skin Feel your face again I still believe in you and me How about we give this One more try So come on and let me hold you Come on you know you want to One more chance to finally Get this right I know you think its over Give me a chance to Change your mind How about we give this One more try One more chance to finally Get this right I know you think its over Give me a chance to Change your mind

I still believe in you and me
