

# Gnarls Barkley, Charity Case

Give, give, give it away now  
Give, give, give it away now  
Give it away now  
Give it away now

I-I-I don't know what matters to you at this moment  
But that's all that matters to me

How are you? (How are you?)  
Knock on wood  
Well I'm not doing so good

About your brother, we couldn't tell  
Although you're worth it, I'm still not well

And I don't understand, how I'm so understanding  
I guess that's all I can be

How are you? (How are you?)  
I think I can help  
But I can't help myself

Should I be happy, you need my help  
I usually just talk to myself

Oh can't you see  
Oh can't you see  
If I help somebody  
Baby there's mercy for me

Ah, charity  
(One for you, and you, and you)  
(One for you, and you, and you)

Don't want to bother you baby  
But needing you, are you needing me like I'm needing you?  
Even my shadow leaves me all alone at night  
Guess I need to start to take my own advice

(La la la la la la la la)  
(La la la la la la la la)

Oh can't you see  
Oh can't you see  
Somebody's a liar  
Whoever said freedom was free

Ah, charity

Give, give, give it away now  
Give, give, give it away now  
Give it away now  
Give it away now

Alright  
Yeah  
(Unintelligible)  
Charity  
Better give it to somebody
