Gnarls Barkley, Charity Case

Give, give, give it away now Give, give, give it away now Give it away now Give it away now

I-I-I don't know what matters to you at this moment But that's all that matters to me

How are you? (How are you?) Knock on wood Well I'm not doing so good

About your brother, we couldn't tell Although you're worth it, I'm still not well

And I don't understand, how I'm so understanding I guess that's all I can be

How are you? (How are you?) I think I can help But I can't help myself

Should I be happy, you need my help I usually just talk to myself

Oh can't you see Oh can't you see If I help somebody Baby there's mercy for me

Ah, charity (One for you, and you, and you) (One for you, and you, and you)

Don't want to bother you baby But needing you, are you needing me like I'm needing you? Even my shadow leaves me all alone at night Guess I need to start to take my own advice

(La la la la la la la la la) (La la la la la la la la la)

Oh can't you see Oh can't you see Somebody's a liar Whoever said freedom was free

Ah, charity

Give, give, give it away now Give, give, give it away now Give it away now Give it away now

Alright Yeah (Unintelligible) Charity Better give it to somebody
