

Gnarls Barkley, Run

Yeah it's still the same
Can't you feel the pain?
When the needle hits the vein
Ain't nothing like the real thing
I've seen it once before
And oh it's something else
Good god

Cool breeze come on in
Sunshine come on down
These are the tear drops of the clown
Circus is coming to town

All I'm saying is sometimes I'm more scared of myself
You better (Move)
I said (Move)

Runaway
Runaway
Run children
Run for your life

Runaway
Runaway
Run children
Oh

Here it comes
I said run

Alright

Yeah I'm on the run
See where I'm coming from
When you see me coming, run
Before you see what I'm running from
No time for question asking, time is passing by

Alright

You can't win child
We've all tried to
You've been lied to
It's all ready inside you

Either you run right now or you'd best get ready to die
You better (Move)
I said (Move)

Runaway
Runaway
Run children
Run for your life

Runaway
Runaway
Run children
Oh

Here it comes
I said run

Hurry little children
Run this way

I have got a beast at bay

Promise me when the chance comes
You'll run as fast as you can
Don't you dare look backwards
Run as fast as you can

(Run) La la la la la la la...

Runaway
Runaway
Run children
Run for your life

Runaway
Runaway
Run children
Oh

Here it comes
I said run
