

GO AHEAD AND DIE, Truckload Full of Bodies

Take in your last breath
Fetid, putrid death
Fear you only friend
With you till the end

Contagious furnace
Groundless graves

Truckload full of bodies
Separate the dead
Enter the circle of Hell
Pestilential smell

Withering away
Thousand's dead each day
Funeral verses
Burn them, no hearses

Contagious furnace
Groundless graves

Truckload full of bodies
Separate the dead
Enter the circle of Hell
Pestilential smell

Lungs are heaving as you gasp of air
Life is weary no hope near the end
