

Go:Audio, You don't have to listen

When I was young
I used to think
What ever happened was meant to be
You dont believe that
I wait around
All day for you
You didnt show
And then I knew
You were leaving

(Bridge)

Wait around
Theres something that I got to tell you
You wont have long to wait

(Chorus)

You dont have to listen
You dont have to say goodbye
You dont have to leave here
Give me one reason why x2
What if I just count to ten?
Close me eyes and open them
Would you be here?
This is all so strange to me
My mouth is dry so hard to speak
But you dont see that
But you dont see that

(Bridge)

(Chorus) X 1

You don't have to listen
You don't have to say goodbye
You don't have to leave here
Thats why Im here tonight
Would you sit and watch me lie
As I think of what to say
Try to make sense of it all

Yeh

(Chorus)

X 4
