## Go Fish, Created For This

vs. 1 You knew I was to blame me, I could not explain the mess that I'll admit I made but now, I'm seein' things your way

## pre chorus:

When You entered my world everything became so clear Your praises come from within me I want the world to hear

## Chorus:

I was created for this reason Father to let You know how I feel inside so let me show You how my heart is saying thanks I was created to give You praise

vs. 2
What took me so long
to see the love I now know
I was lost, needing directions
confused I didn't know where to go

## chorus

bridge: as we live our simple lives let us never stray from the reason we're alive

and that's to give you praise

when this life we know is through one thing will still remain we were made to give you praise
