

# Go Fish, Infectious

Vs. 1

I wonder what people see  
When they take a look at me  
Do they see You?  
No doubt to me that You're there  
However when they compare  
Is there a difference from their point of view

There's a time and a place  
When I should share my faith  
The time is always and the place is everywhere  
It's time for me to get back and attack  
With the love that You told me I need to share

I, I, I need to get my act together  
I, I, I've gotta a world to pursue  
I, I, I'm on spiritual endeavor  
To show by livin' what You can do

Chorus:

I wanna be infectious  
And turn around the mess this  
Crazy world has turned into  
A pretty simple deal  
I just gotta keep it real  
And let Your love shine on through  
I wanna be infectious for You

Vs. 2

My daily goal oughta be  
To create a jealousy  
'Cuz of my freedom with You  
Even though I sometimes fall  
I pray that through it all  
They see in me what love can do

I, I, I need to get my act together  
I, I, I've gotta a world to pursue  
I, I, I'm on spiritual endeavor  
To show by livin' what You can do

Chorus

I try to tell my friends what I know is true  
They look at me like I missed my cue  
It's not an easy thing to believe in You  
I guess that's why You say that the chosen are few
