

# Go Fish, That's What Amazes Me

vs. 1

A musical blanket  
Woven together with a melody and rhyme  
The songs we live our lives to  
Take us to another place and time

And like the snowflakes that fall from heaven  
Each one different crafted carefully  
From only eighty-eight keys come endless possibilities  
And that's what amazes me

vs. 2

Little fingers curled 'round mine  
A perfect heart beats right in time  
Brand new eyes look all around  
As tiny ears hear every sound

And like the artist creates his masterpiece from nothing  
So this child came to be  
From the love of two came a whole new entity  
And that's what amazes me

vs. 3

There is a place inside of me  
I'm thankful no one else can see  
Thoughts I've had, wrongs I've done  
I wish I could take back every one

Like a father who loves his children  
You've seen my faults, Lord, and You've forgiven me  
The one I wished I was is the one that You see  
And that's what amazes me
