

# Goapele, Darker Side Of The Moon

Verse 1:

When you see me standing in here  
Cause I didn't walk alone  
There are pieces of you landing in here  
Somehow to make me whole

Chorus:

Cause you  
You're the darker side of the moon  
Always in the shadows  
Leaving me to shine shine shine  
You're the one who carried me through  
Held me in the sky  
Leaving me to shine shine

Verse 2:

Any time you pushed me  
When it felt like too much  
I know it made me grow  
And looking from the distance  
At a person who  
Who I wouldn't know

Chorus:

But you  
You're the darker side of the moon  
Always in the shadows  
Leaving me to shine shine shine  
You're the one who carried me through  
Held me in the sky  
Leaving me to shine  
From the stretches of the world

Bridge:

And more perspective than I wished for  
You showed that there is more  
Than what a ???  
You never question worth  
You made a path wherever I go  
Giving far more than I asked for  
Oh you

Chorus:

You're the darker side of the moon (the darker side)  
Always in the shadows  
Leaving me to shine shine shine  
You're the darker side of the moon  
Always in the shadows  
Shine shine shine (leave, leaving me to shine)  
You're the one who carried me through  
Held me in the sky  
Leaving me to shine shine  
Shine
