## Goapele, Good Love

I know sometimes I push you Say all that I do See if you'll still stay. I like to have my way. If I took you for granted just know, I never meant it I try to be thoughtful, and make sure my heart's pure

CHORUS Good love is hard to hold That's why I'm squeezing tight

Sometimes I don't feel you, you don't feel me, we?re distant, we need space, but I'm coming back for you 'cause you're my true blue. You're a Capricorn, I'm Cancer, and sometimes we can't relate, but we meet at the center that's where love is tender You're my first phone call, my best friend, you could never be replaced. If I'm not there beside you-I'm just a hop, skip, a jump away I question everything It's 10 years and I still can't get it straight just know that I love you always thinking of you

## CHORUS

Good love is hard to hold That's why I'm squeezing tight Good love is hard to hold That's why I'm squeezing tight

I love that you're so truthful, so willing to work it through, you love so brave. My passion is your flame. I don't want you to change. You kiss me softly under covers and you never make me beg and you even say 'thank you', and 'sorry' when you're rude

I love you today in the purest way I love you today in the purest way

Never, never never, never never been so sure before now never been so sure before, Don't think I could ask for more Never been so pure

I love you today in the purest way I love you today in the purest way
