

# Gob Squad, Supersonic Revolution

Turn the TV off as you search for  
a deeper meaning of what you're in for.  
As they inform, you better listen to your heart.  
You're the one to take it down to where you wanna take it down.

Grab your mind's remote control  
and take charge of your own life  
like you've never done before.

Come on, let's go. You gotta run faster.  
The leading edge of a mass disaster.  
You and I.  
Side by side in a  
supersonic revolution.  
The fugitives of a mass confusion.  
Side by side.  
You and I.

Take a closer look as they curse you  
because you and I were the first to  
withdraw our membership of the club of no comment.
