

# God-Des And She, Lick It ( L Word)

Good Evening, Class  
I would like to welcome you  
To Pussy Eating 101  
Pay close attention now

There's rules and regulations to pleasin' a girl  
Goin' downtown could really rock her world  
But you gotta make sure that you know what you're doin'  
There's a map down there that you gotta start learnin'

First, you gotta make sure you rehearse  
Move 'round your tongue like your tryin' to curse  
'Cause there's nothin' worse than a tongue that doesn't work  
Then your girl will be mad and you'll feel like a jerk

Spread out her lips before you kiss  
You wanna make sure that you find the clit  
Lick a little bit then move it all around  
Lick it all over 'til you hear her make a sound

Then you know that you found a good spot  
Tease it and touch it, but not a lot  
Put your mouth on top, you're in control  
You can make it happen - fast or slow

Lick it, better lick it right  
Touch it, better touch it right  
Kiss it, better kiss it right  
Do that pussy right

Lick it, better lick it right  
Touch it, better touch it right  
Kiss it, better kiss it right  
Do that pussy right

Don't be bland - better act creative  
Be on top of your game and be innovative  
Experiment a bit and change it up  
Lick a little lower then put it in her butt

Then you can place a finger inside  
Make sure that it's wet and easy to glide  
If she's really wet, and your finger slides,  
Try to put another one inside

But you better still have your mouth on the clit  
You know you're doin' good if her legs twitch  
Then pick her up and set her on your face  
Pick a large area to give her some space

She needs some room to place your mouth where she want it  
And let her ride your face like she's 'bout to cum on it

The key to a girl's heart is goin' down south  
So come on everybody let her put it in your mouth!

Lick it, better lick it right  
Touch it, better touch it right  
Kiss it, better kiss it right  
Do that pussy right

Lick it, better lick it right  
Touch it, better touch it right

Kiss it, better kiss it right  
Do that pussy right

Let your mouth do the talkin' and your tongue do the walkin'  
Work on your cardio, there is no stoppin'  
Get through the pain if your jaw locks  
You gotta be a soldier and don't stop

Lick her and finger her at the same time  
Feel around the G-spot seek and you shall find  
Rup on that spot, lick on top  
You got to be coordinated, show her what you got

Once you got that down, put your other hand around  
I have to be blunt and not profound  
Put your wet pinky finger in her asshole  
You're in three different places - it's time to go

Your pinky in her ass and your other in her hole  
Your tongue move fast like a drum roll...  
If your girl can't come this way,  
I guess she's not ready, come back another day

Lick it, better lick it right  
Touch it, better touch it right  
Kiss it, better kiss it right  
Do that pussy right

Lick it, better lick it right  
Touch it, better touch it right  
Kiss it, better kiss it right  
Do that pussy right

Lick it, better lick it right  
Touch it, better touch it right  
Kiss it, better kiss it right  
Do that pussy right

Lick it, better lick it right  
Touch it, better touch it right  
Kiss it, better kiss it right  
Do that pussy right
