

God Lives Underwater, Rearrange

All along

We knew the answers all along

Why did it take you so long

I hear you say

CHORUS

It all depends

On how your point of view can change

Round and round

Re-Arrange

Don't count the days

All along

I didn't listen physically

I have come to find

What's not mine

I thought was a given

CHORUS

BRIDGE

And all the while

I feel like I could go either way

Behind your back, I just may

Don't count the days

All along I could do anything

Anything without you

Anyway

CHORUS
