

God Lives Underwater, Take Whatever You've Got

I feel the train changing tracks
The sound of that
I reminisce
I try so hard to stay in tact
Noone knows..
Noone cares
I'll take whatever you've got
I'll take whatever you feed me
When it's time for me to come down
There's never a compromise
You know
I'll take whatever you give
And what you give I'll put in me
When it's time for me to come down
There's never a compromise
You know it, You know it
I feel the thoughts that you don't have
Think of me
You probably don't
Disappointment's all I know
And all I do
But I say I won't
I'll take whatever you've got
I'll take whatever you feed me
When it's time for me to come down
There's never a compromise
You know
I'll take whatever you give
And what you give I'll put in me
When it's time for me to come down
There's never a compromise
You know it, You know it
I feel the train changing tracks
The sound of that
I reminisce
Disappointment's all I know
And all I do
But I say I won't
I'll take whatever you've got
I'll take whatever you feed me
When it's time for me to come down
There's never a compromise
You know
I'll take whatever you give
And what you give I'll put in me
When it's time for me to come down
There's never a compromise
You know it, You know it
I'll take whatever you've got
And what you give I'll put in me
I'll take whatever you've got
And what you give I'll put in me
I'll take whatever you've got
And what you give I'll put in me
I'll take whatever you've got
And what you give I'll put in me
I'll take whatever you've got
You know it, You know it
