

God Lives Underwater, Vapors

I live
Under
A sky
Of angels
Bulletproof
Vest of
All my
Dangers
I've been
Deceived
By all
The flowers
Planted around me
Sweet smell
Replaced
By all of
All of the vapors

CHORUS

Everyday you think I live a lie
You think I want to die
But can't you see I'm what I want to be
I've been misunderstood about my being around
You think I want to die
But can't you see I'm what I want to be
I can't
Seem to
Stop letting
People down
Or that's what they say
I still
Don't care
About them
Or what
They're
Thinking
What they're thinking
It's not fair
For anyone
To believe
Them or me
Or the papers

CHORUS

(Oh jeez)

(Wha'd you do?)

CHORUS

Now I know what my destiny is
Its the ultimate rift
In the little will I have
I'm not gonna last till the end
I'm still my only friend
Now I know what to do
