

God Machine, Ego

Ego is beast and ego is evil
Ego is beast and ego is evil
Ego is beast and ego is evil but ego knows best
Ego is beast and ego is evil
But ego knows best at least she says so
I am one and I am all but sometimes
Sometimes I am nothing at all
And you know you know
My little insecurities
Like someday I may fade away
I can't find my way to heaven
I can't find my way to heaven
Who's at you your back door
Calling my name
And who walks on these floors
And who walks on these floors
Who's at the back door
Calling my name
And who walks on these floors
Pass the red light
Pass the red light
Red light
Ego is beast and ego is evil
