

God Machine, Home

Black car wrong side of the road
Saying look out jack
We're taking him home
To his promised land
We're taking him home
To his promised land
See the woman point to the sky
Cross her heart and hope to die
Jesus made her do it
Jesus made her do it
And now she's taking him home
She's taking him home
To his promised land
I'm a wayward soldier on my way
I'm a wayward soldier on my way
To my promised land
