

God Machine, I've Seen The Man

I've seen a man on the corner
Preaching of his god
I've seen another that doesn't want
The burden of his cross
But I stand dead in the centre with nothing at all
But I stand dead in the centre with nothing at all
I see a man that says I can give you everything
Just open hands
I see another say just let the time pass
But I stand dead in the centre with nothing at all
But a head full of shit and
A fear of the past while he stands and laughs
Damn god
