

# God Machine, It's All Over

She said it's cold out here  
Won't you let me in  
We've been in this rain for hours  
You haven't said a thing  
And why do all the things have to change  
Just when they mean the most  
She said why do all the things have to change  
Just when they mean the most  
It always happens that way  
It always happens that way
