

God Module, As The Night Falls

Words are like pictures
True or false designed
To draw the lines and features of the mind

Photograph your aching heart
Smile as it's torn apart

Reflections in the depths of the things you took from me
Now listen as the night falls - You'll understand everything

There's an answer to be found
Listen to what I say
Hidden behind walls of sound
You and I are now the same
Figures form that you can't see
We've changed in many ways
Leading us to eternity
We'll turn the night to day

Photograph your aching heart
Smile as it's torn apart

There's an answer to be found
Hidden behind walls of sound

No reflection in the depths of the life you stole from me
Don't listen to the nightfall - It destroys everything
