

# God Module, Brainz

"Why do you eat people?

Not people, brains...

Yes...

Why?

Pain..

What about the pain?

The pain or be dead"

Can you tell me where to go now?

That all is lost and I don't know how

Something is different, somethings nothings right

The truth doesn't matter with the absence of life

I see no way to resolve this

To make believe we are above the others

Control my hunger I'm already out of control

But everythings cold when your dead and alone=

Come with me, take my hand

I promise you there's no promise land left

For us to reach, for us to see

One day soon you'll be the same as me

Not alive, not living

Recently deceased, my hearts not beating

So take my word, my world is not the same

Come closer let me eat your brainz

So tell me how could this happen?

I try to be good so I go to heaven

But now Hell has found its way to Earth

Is this some kind of joke or some kind of curse

I thought that Jesus loved us

Why else would he keep this from us

Not to kill and not to cheat

But now i see his children as pieces of meat

Come with me, take my hand

I promise you there's no promise land left

For us to reach, for us to see

One day soon you'll be the same as me

Not alive, not living

Recently deceased, my hearts not beating

So take my word, my world is not the same

Come closer let me eat your brainz
