

God Module, Entranced

Open-eyed
Watching nothing
We're terrified
That they're seeing something
That could take our reality away
Leaving no control on any anything

No more time
It won't go away
No surprise
This is the end of everything

Here and now
Our fiction comes alive
The world falls apart
We're entranced
We're mesmerized

System set
The countdown begins
A ticking time bomb
To erase all our sins
Close your eyes
This won't go away
It's feeding time
The dead woke up today
