

Godhead, I Lie To Live

Feel the hate from my
Misery surround you
As you watch me fall
As you watch me die
Slowly I decay
From the world around me
Slowly I decline

As you hear me lie that
I live Lie that

I live Feel the cold from my
Icy hands around you
As you slowly fall
As you slowly die

Never to return to the world
You know of Fear you will know well

As you hear me lie that
I live Lie that I live

You have not known pain
Till you've lived as
I do You will never know
Till you hear me lie that

I live Lie that I live
Lie that I live Lie that I live
