

# Godsmack, Why?

How in the hell can I forgive.  
You made me suffer.  
Tryin' to see how far you'll push me underground.  
Oh, back into the rhythm, fast and trippin' me out.  
When you're in my world, yeah.  
Everything you say, I find a way to bring you  
Why?

Another way for you to fake your way through your life.  
Yeah.

Remember everything you do will come around.  
Oh, am I going back.  
To think that I might crack and you might like it.  
Fade away, baby.  
Why did you just get out of my life?  
Why?

I think of you and I'll believe in you again.  
Why?  
Why?
