

Gogol Bordello, Let's Get Radical

Good morning!
Oh fuck...

She says let's go to brighton beach
And tap our foot to disco
Just eat the food and tap the foot
Vsjo budet korosho'
That would be great fun of ironic kind
For your self-collapsing ironic mind
But hey girl we got a cure for you
Provided of course you will ever make it through
Let's get radical
And not sporadical
Not ironic sardonic
Catatonic ceremonic
But radical
You know mother some things are actually sacred
And tapping your foot to the ceremony just won't do
So hey girl we got a cure for you
Provided of course you will ever make it through
And hey boy we got a cure for you too
Provided of course you will ever make it through
Let's get radical
And not sporadical
