

Gojira, Another World

We mock and slaughter all the purest kinds
Blinded by the noise and maze
This flash in our eyes
Hope for the world
But prepare for the worst
I'd rather find a way on my won

Another world
Another place to be
Other world
A new place for me

Don't believe your lies
Don't believe yourtales
I am longing fo the day i will find...

Another world
Another place to be
Other world
A new place for me

Another world
Another place to be
Other world
A new place for me
