

Gojira, In The Forest

I want to live in the forest
Between the roots and the branches I lay
On the moss I sit, I want to rest by the river

I want to live in the forest forever
The power of trees, I want to feel forever
Connection with life, animals, and stars

Between the roots and the branches I lay
Meditate the light wide open to the stars
Speak of the whales, deep in the oceans
Speak to the planets, deep universe
