

Gold City Quartet, It's Just Another Red Sea

Verse

Well let me tell you 'bout a story, the prophet Daniel told
How three Hebrew boys wouldn't bow to the Kings image of gold
Well he threw them in the fire, but the Lord was there too
And he delivered them the same way He'll deliver you

Chorus

It's just another Red Sea
That the Lord will walk you through
It's just another giant
Like the one that David slew
Well it's just another battle
An opportunity, for you to claim the victory
Don't worry when the water looks deep
It's just another red sea

Verse

So you say you've got a problem, feelin' helpless and afraid
Another dead-end situation, with no hope for your escape
Just remember when it looks like you have faced your final hour
God sees it as another chance to move and prove His power

Bridge

It's just another red sea
It's just another red sea (x4)
