

# Golden Earring, A Shout In The Dark

From the Album:

\* The hole

It's rainin' on a summernight  
I'm gonna take a ride on a dreamboat  
Don't know 'bout it's destination  
Higher than the clouds & the angels  
Further than a million roads forever - away  
From the deathpatroll  
'Cause when I close my eyes  
I dream of freedom  
And when I open 'em  
I see a multitude of good reasons  
To get the hell outa - here!  
Tonight I'm breaking out  
Tonight I made a vow  
That any minute now  
I'm gonna climb the wall of freedom on my own  
Yeah - tonight I'm full of doubt  
Tonight there's no more doubt  
That any second now  
I'm gonna face a life of treason on my own  
I hear a shout in the dark  
A scream in the alley  
It seems like the devil runs this whole city - yeah yeah  
It seems like the devil shows me no pity  
I'm going home  
Tried it all day lord  
Time for me to kick off my working shoes  
There's nothin' left to lose  
Behind the tired buildings  
Places that are haunting me lie lingering  
Beyond the Berlin Wall  
I hear it whisper I can hear it call  
At night the sky for my hungry eye - hides a rainbow  
Behind the concrete door
