

# Golden Earring, Chargin' Up My Batteries

From the Album:

\* Cut

Well I couldn't live if I don't see a miracle happen  
Stayin' up being here with you  
And I do believe in a mystery that needs unraveling  
Stayin' up being here with you, in tune.....  
I'm runnin' around in circles painted on the ground  
I don't know how they got us here  
I don't know why it don't come clear  
Confession that I have to make  
Expression that I have to fake  
This situation on the other hand  
Is a matter I cannot comprehend  
When plugs don't spark in the dark  
I'm chargin' up my batteries  
Gimme full capacity  
Hey now any day now  
It's no tragedy but I hear the good times fadin'  
Like a spotlight changin' green to blue  
Yes I do believe something better be happenin'  
Before the night comes through  
Ain't it true.....
