

Golden Earring, Enough Is Enough

From the Albums:

* N.E.W.S.

* Something heavy going down

Well, not so long ago, I ran into you
A pair of lonely eyes and a pair of broken hearted shoes
and then the other night, you were as cold as snow
You kept your blue jeans on and I never heard you leavin' the room
Woke up half past noon, I was alone in bed
I could still smell your perfume
Drifting through the smoke signals of your black cigarettes
You gotta hold on me, straight to the bedroom
When my nerves went cracking down in my knees
Enough, enough is enough
If it's love, nothing's tougher than love
Written on my shaving mirror, in lipstick blood colour:
Amigo, leave it alone. You gotta leave it alone
Pick up the telephone, start investigating
You know that Cuban girl, with the Castro impersonation
I've been checking around, with the revolutionary
All I have is a mirror with a message and a memory
You'll never understand, what comes over me
When I read her lines, written on the face I see
Tell her please,
if it's love, I wanna know where she hides that love
Enough, is never enough
Nothing can stop me now
No one can stop me now
I can't leave it alone, I can't leave it alone
I can't leave it alone, I can't leave it alone
No, no, no
