

Golden Earring, Facedancer

From the Album:

* To the hilt

Not too serious
Take that frown off your face
I'll get furious
Baby I'd like to see a change of looks
Gimme pleasure
You look good when you smile
(that's better)
Say actress
Don't you wanna do
The things I like best
Facedancer magic eyes
That burn with passion and fake surprise
Every time you call the tune
You get your way just a little too soon
Aggressive mask on request.
Sure to start another bad fight
On the surface tigress
But on the inside baby, you're a lullaby.
I'm gonna lose you
To some photographer
You'll be abused
You know he's bound to get your act uncovered
The games' brutal
They're low on scruples.
But I'll be waitin'
I'll be here when your features are failin'
