

Golden Earring, Grab It For A Second

From the Album:

* Grab it for a second

We were rolling through the room
After feeling heartboom
Feeling next to mine
We were just eighteen
I was real and mean
But I had a soft spot for her eyes
Another memory
That's all you get to key
Another memory
That's all you get to key
I wanna grab it for a second
Wanna hold it tight
Remember what it feels like
Grab it for a second
I could have it all day and night
Yeah now were rollin' through the times
The times
Takin' and blow a bad blow
By the time we're ready
Not to be
To the end of a show
Memories, that's all you get to key
A lot of memories
That's all you get to key
Ref:
I wanna grab it for a second
Wanna hold it tight
Remember what it feels like
Grab it for a second
And hold it tight
Remember what it feels like
Grab it for a second remember what I feel
I could have it all day and night
