

# Golden Earring, I Can't Sleep Without You

From the Albums:

\* The naked truth

\* Last blast of the century

Silver like a fish slappin' on my tongue  
Speak to me the way you do  
Hide me all summer in your arms  
Hold me the way I like you to  
You fill my cup till it's crackin' up  
The button that says alarm  
says me I'm not supposed to  
be like a champ that's going down  
Fighting to get close to you  
Everybody gets up excited by love  
The sight of the ring, the sight of the blood  
I can't sleep without you (4 x)  
Referee's in black and he's in shock  
The judge is hammering for some solid proof  
My heart keeps racing like a clock, yeah  
I can't sleep without you  
I'm like a timebomb, ready to go off  
in my head and in my heart  
The light keeps fading in the dark  
It's like a nightmare that's comin' true  
I can't sleep without you  
I'm crazy in the city, it's just not fair  
Send me to my corner, and you're never there  
I can't sleep without you  
I can't .....
