

Golden Earring, I've Just Lost Somebody

From the Album:

* Miracle mirror

She came down from far away and smiled at me

In one moment I found out how love can be

Then I realized that she had gone again

I've just lost somebody

A-ha, please let me dream

Though I know that love ever happened this way

I'll be here untill she will return one day

Here low, I am dreaming, she must appear again

I've just lost somebody

A-ha, please let me dream

She came down from far away and smiled at me

In one moment I found out how love can be

Then I realized that she had gone again

I've just lost somebody

A-ha, please let me dream
