

Golden Earring, If You Leave Me

Baby if you leave me
I won't know what to do
So darling do believe me
Oh my heart belongs to you
I know they say a lot of things
About me and what I've done
For baby that's loveless
I never change and you know
Now think what you do before
You treating cruel
Baby if you leave me
You find out
You was wrong
But though you still deceive me
You will find
My love is strong
I know they say a lot of things
About me and what I've done
For baby that's loveless
Never change and you know how
Think what you do before
You treat me cruel
Honey I need you
Every day I need you
It's like a thrill
So please don't be so mean
