

Golden Earring, Miles Away From Nowhere

From the Single:

* Miles away from nowhere

Thunderin' the wheels, pounding on the road
Thinking about the cargo and my precious load
I'm just a homesick-wreck, lit up by the dashboardlight
About a million miles away, no matter how hard I try.
You'll always keep staying on my mind
You'll always keep playing with my mind
Miles away from nowhere, miles away from nowhere
A million miles from anywhere everywhere somewhere,
miles away from nowhere.
Where'm I supposed to go, when I get there I let you know'.
You'll always keep....
You'll always keep....
Here she comes across the river
Guess it's time to deliver
No one that can stop these tires
Ten thousand horse power
Miles away.....
