

Golden Earring, Nighthawks

From the Album:

* Keeper of the flame

Every time when the night falls
I can feel my temperature risin'
Every time when the night calls
And the moon seems to be smilin'
Yeah! Don't talk about it
Just take your wings & fly
Yeah! Don't worry 'bout it
We're all goin' flyin' tonight
We can wing it on the wildest storm
Baby we're gonna dive in - dive in
Wow, baby like the night before
C'mon & watch the nighthawks flyin'
C'mon & watch the nighthawks flyin'
Low down city in the rain in the summertime
Don't it wanna make you cry & die before your time
Nighthawks, nighthawks
Everytime when the night falls
My baby gest sentimental
Everytime when the night calls
And the mood gets temperamental
Yeah! Don't think about it
Just shake your wings & fly
Yeah! Don't worry 'bout
No sign in your eyes of fatigue
You've been jailed before
Ride on the wind
You need more, more, more, more, more
Let me tell you that a nighthawk is cryin'
Don't cry like you know cryin'
Let me tell you that a nighthawk is dyin'
Don't die like you know dyin'
