

Golden Earring, Secrets

From the Album:

* Cut

Tell me what's happenin'
Curiosity doin' me in
Something strange happenin'
You keep a closed door behind you
Got a window I can't see through
Lock your mail inside a drawer
Never did me like that before
Don't tell me it's another one of your secrets
I smell conspiracy
Don't let me down
I'm on the outside baby
Waitin' for a friendly sound
Don't let me go to pieces
Celebratin' all alone
I come apart bit by bit
Add a number to your top secret list
In between hot & cold
You'll find the truth is
Working against us
I wanna know more
Don't tell me it's another one of your secrets
You make a move clandestine
Underground hide & seek
Getaway with incidents
By lack of evidence
On the verge of committing a crime
Sendin' out a private eye
Defender of innocence
Trigger of coincidence
Right between hot & cold
Right between the left and the right eye
Tonight for instance
Don't tell me it's another one of your secrets
