Tell me what's happenin' Curiosity doin' me in Something strange happenin' You keep a closed door behind you Got a window I can't see through Lock your mail inside a drawer Never did me like that before Don't tell me it's another one of your secrets I smell conspiracy Don't let me down I'm on the outside baby Waitin' for a friendly sound Don't let me go to pieces Celebratin' all alone I come apart bit by bit Add a number to your top secret list In between hot & amp; cold You'll find the truth is Working against us I wanna know more Don't tell me it's another one of your secrets You make a move clandestine Underground hide & amp; seek Getaway with incidents By lack of evidence On the verge of committing a crime Sendin' out a private eye Defender of innocence Trigger of coincidence Right between hot & amp; cold Right between the left and the right eye Tonight for instance Don't tell me it's another one of your secrets
