

# Golden Earring, Something Heavy Going Down

From the Album:

\* Something heavy going down

On the streets that go by number  
Still can't figure out how to get home  
There is no life lines only dead lines  
Sure picked a fine time to be born  
First you taste it then you're wasted  
By the time you're almost 16 years old  
Everything used to be so simple  
Like the beating of a heart  
Dedicated to my little darling  
Right until the day we'd part  
There's fist on the door  
I can hear it knocking  
Gotta check it out  
Beyond a shadow of a doubt  
There's something heavy going down  
And there's more to it than a pistol and a gun  
Something heavy going down  
On a midnight operation when the searchlights, make your skin crawl  
My reaction to the action is  
I don't wanna be doing this at all  
Breaking rules that are made in schools  
That teach you how to be successful  
Used to be so simple  
Like the beating of a heart  
Dedicated to my little darling  
Right until the day we'd part  
There's fist on the door  
I can hear it knocking  
Gotta check it out  
Beyond a shadow of a doubt  
Refrain: ...  
And there's more to it than a pistol and a gun  
There's something going down, something heavy going down  
There's more to it than a rocket and a bomb  
There's something going down, something heavy going down  
And there's more to it than a pistol and a gun  
There's something going down down down down yeah  
Something going down
