

Golden Earring, The Loner

From the Album:

* Golden Earring

They call me the loner cause I'm all alone
I've got nobody I even got no time
I was born in Missouri and it must have been a very bad day
For my mom and my daddy when they carried me away
They call me the loner and I live by the day
I never never think about tomorrow no place I wanna stay
They call me the loner and I went through all 50 states
I've got no friends I even got no faith
Yes I'm sad and I'm lonesome
A paradise I've never seen
To the last stop must heaven
The one place I've never been
