

# Golden Films, The World Above

The world above is where I'll be  
The moon and stars will shine for me  
I'll see the sights that only can be  
In the world above

The world above is beautiful  
Where mountains meet the sky  
It's where my prince will marry me  
Together our dreams can fly

My prince will fall in love with me  
I'll dance with him eternally  
I'll be much more than foam on the sea  
In the world above

We'll share a love that only can be  
In the world above
